S I R :

ATT: ISSUE BRANCH

Please make the following changes:

IN THE CLAIMS:

21. (Twice Amended) An information reproducing system  
comprising:

code reading means for reading a [desired] dot code from an  
information recording medium on which multimedia information  
including at least any one of [a radio] audio information, image  
information and digital code data has been recorded in the form  
of a dot code which can optically be read;
